 #DB1246, #DB2032, #DB2033,
 #DB2039, #DB2047, Magnifica
 Beads #10060

- Technique:** Line Beading
- Following the direction of the painted line, apply beads with a cross-stitch so the hole lines up in the direction of the line.
 - For vertical lines, start by coming up in the lower left hole, go through the bead, and back down in the upper right hole. Next, come up in the lower right hole, go back through the bead (from the bottom) and then go down in the upper left hole.
 - For horizontal lines, come up in the lower left hole, go through the bead, and back down in the upper right hole. Then, come up in the lower right hole, go back through the bead (from the top) and then go back down in the upper left hole.
 - When the individual section is complete, run a stitch back through the entire line of beads to stabilize.

Graphs are for representation of the rhythm of a stitch, and may not fit the specific, painted area. Unless otherwise instructed, the stitches should be compensated to fit the painted area, appropriately.

Appropriate substitutions should be made for any beads and/or embellishments that may have been discontinued.
