- The first stitch of the cross-stitch, no matter which directional thread you are covering, goes from the lower left, through the bead, then back down in the upper right.
- When covering a vertical thread, the second stitch will come up in the lower right, come back through the bead from the bottom (lower left end) and then go back down in the upper left.
- When covering a horizontal thread, the second stitch will come up in the upper left, come back through the bead from the bottom (lower left end) and then go back down in the lower right.
- Move between stitches in diagonal rows, just like basketweave.
